Outdoor Curtain Measuring Tips

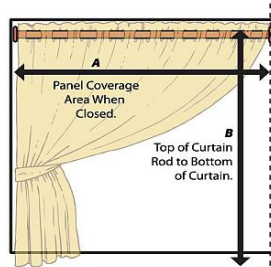

- Always use a metal tape measure to insure accuracy.
- Measurements must be provided in inches.
- Each panel is sold and measured separately.
- Curtain rods are typically mounted 2" to 4" above opening frame.
- Finished Width will be Measured Coverage X 1.5 if 2+ panels are used or X 2 if single panel is used.
- Finished Height will be 3/8" taller if small grommets are used and 5/8" taller if large.

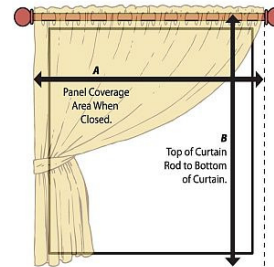

Inside Mount/Split Panel

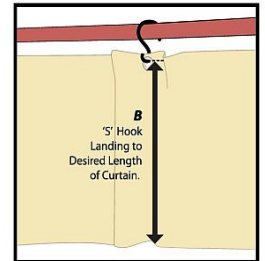

Outside Mount/Split Panel

Inside Mount/Single Panel

Outside Mount/Single Panel

Grommet on S Hook

Stock Fabrics/Colors: Sheer White, Sunbrella Camel, Forest Green, Jockey Red, Natural, Pacific Blue, Taupe, and Terracotta: [Other Sunbrella® fabrics colors available as Special Order.](#)

Mount: Indicate *Inside* mount or *Outside* mount.

Coverage Width: *Inside mount:* Measurements are from inside edge of window frame to the panel coverage area when closed. *Outside mount:* Measurements are from inside edges of finial rods to the panel coverage area when closed.

Given Height: The vertical measurement from the top of your rod, or wire, or where the grommet hangs on your hook, to where you want it to hang.

Tie Backs: Optional; Standard measurement 3" x 29". Qty/Panel

Curtain Bottom Finish: Indicate: Standard Hem, Weighted, Tabbed; 1, 2, or 3" Rod Pocket; Large or Small Grommets

Grommets: Large (1½" ID) or Small (3/8" ID) grommet sizes. Grommets are spaced approximately 6" apart unless otherwise indicated in comments section below.
