

Portofino Sing 2U Important Features

Patented Rib Lights & Center Moon Light

- 44 feet of lighting built into the umbrella ribs. No conventional bulbs to burnout
- Over 96 lights (Star lights) built into the umbrella ribs. Very Clean Look (Not Strung on but Built in the rib)
- All star lights encased in ultra clear corrosion proof, unbreakable polyurethane strand. Maintenance free
- Each light strand has a 50,000 hour life span.
- Center Moon light uses an “easy to replace” Automotive Brake light, light Bulb is included
- 12 Volt-Low Voltage system for Safe use
- Moon & Star Lights have 3-way (position) switch, Off- High or Low
- UL/CE Approved 12V Indoor/Outdoor Transformer with 27’ cable.
- Water resistant UL outdoor approved wiring
- All wires and circuits boards are concealed in a weatherproof compartment, easy to repair or maintain
- Maintenance-free and user friendly design

Patented Frame construction

- Beautifully designed 10’ x 10’ square cantilevered canopy.
- “Powder coated tough” aluminum frame comes in Antique Bronze color.
- The triangle formation in our frame when fully opened is designed for maximum reinforcement.
- Anodized Zinc Aluminum alloy components.
- Special blend PU additive for better protection from UV rays and harsh weather conditions.
- Ratchet style crank assembly with an advanced gear mechanism that requires little effort to operate.
- Eight heavy-duty honeycomb designed ribs.
- Hidden “rope & pulley” system built into the frame, not exposed to harmful elements.
- Removable crank handle to prevent tampering.
- Low-maintenance, user-friendly design.

Patented Umbrella tilt control

- Our patented “G & P” tilt handle easily adjusts using just one hand.
- Brace back tilting style provides reinforcement
- Pistol grip tilt handle does not need cranking, pins or thumbscrews.
- Four built-in nylon bearings for smooth operating when adjusting the tilt.
- Umbrella can be tilted into six different positions.
- No need to move the furniture every time you want to find shade.

Canopy

- Canopy style: 8-rib Square shape collapsible structure.
- Main fabric and vent top fabric are made with matching colored binding.
- Vent top canopy allows hot air & wind to escape from beneath.

- Canopy closes in seconds and secures to the main post for quick storage.
- Easy to open & close without interfering with furniture, spa or patio items.

Hardware

- Marine grade Stainless Steel hardware. (NO RUST)
- Nylon hubs and connectors, will not chip or break like plastic.

Patented Rotating Base with Cross Arms

- Foot Pedal Rotating Base has Braking Mechanism that locks umbrella base into position
- Umbrella rotates 360 degrees
- 12 Preset Locking Positions for 360 degree coverage
- Stainless Steel Bearings mechanism is sealed for longer outdoor durability
- Plastic cover on rotating base provides extra weather protection
- Plastic insert on base tube to prevent scratches on frame
- Portable steel cross base allows for umbrella to be moved to different locations
- (Other optional bases are also available)

(for Power Base upgrade, please see below) For item # UP338P

Patented Power Base (Included but ship in 2nd carton)

- Antique Bronze color Finish matches with umbrella frame
- Umbrella Base with 4 built in rollers allows consumer to easily move the umbrella
- Individual rollers located at each corner that can be easily adjusted in height from top to fit an unlevelled area
- Built in rotating device with foot pedal allowing a 360 degree rotation
- Built in two Hand Grips design for easy lifting
- Made of heavy duty Polyethylene material for extra strength
- Umbrella Base weighs up to 300 lbs when filled with gravel or sand.
- Strong honeycomb center Hub and support walls
- Strong enough for a person to stand on (up to 270 lb)
- Textured non-slip surface
- Our raised base design won't scratch up patio decks
- Very resistant from rust and corrosion.
- 32" x 32" x 8" dimension, 70 lbs when emptied

Patented 360 degree foot pedal rotating device

- Foot Pedal Rotating Base has Braking Mechanism that locks umbrella base into position
- Umbrella rotates 360 degrees
- 40 Preset Locking Positions for 360 degree coverage
- Stainless Steel Bearings mechanism is sealed for long outdoor durability
- Plastic cover on rotating base provides extra weather protection
- Anodized steel post inserts into umbrella main post for maximizing stability & durability
