- (B) Long Rail...4
- (C) Short Rail...4
- (D) Posts...4
- (E) Nailing Strip... 2

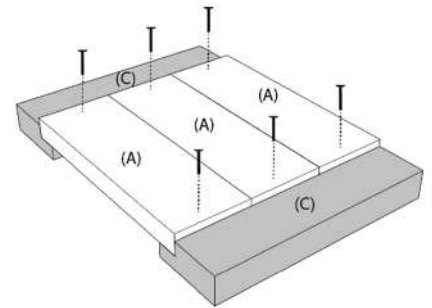

Hardware:

- 4-inch Screws...16
- Spacer Block...2
- 1 ¼ Nails...72
- Logo w/ nails... 1

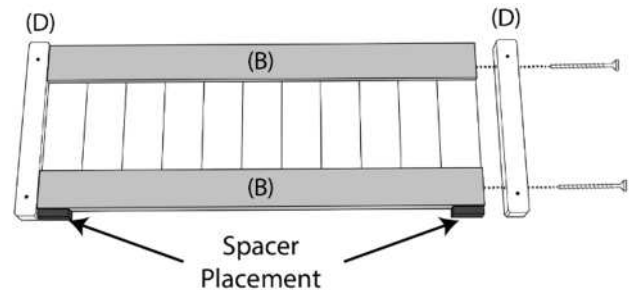

STEP 1. Build Short Sides

- Set 3 Side Slats (A) into notch of 2 Short Rails (C), as pictured, attach with nails (2 per slat). Repeat to build 2nd short side.

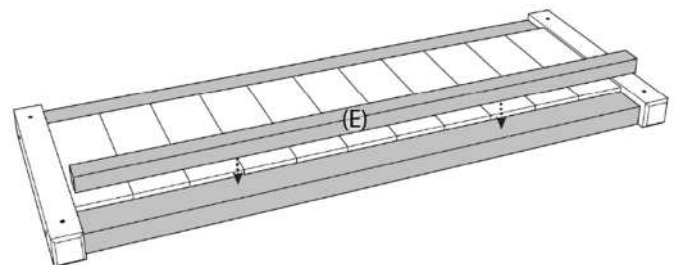

STEP 2. Build Long Sides

- Set 11 Side Slats (A) into notch of 2 Long Rails (B), attach with nails (2 per slat).
- Flip over, so slats are on ground. Place spacer blocks, on edge, beside bottom ends of long rail.
- Place Posts (D) on ends of Long Rail, as pictured.
- Flush bottoms of Posts (D) with bottom of spacers, attach with screws. Repeat to build 2nd long side.

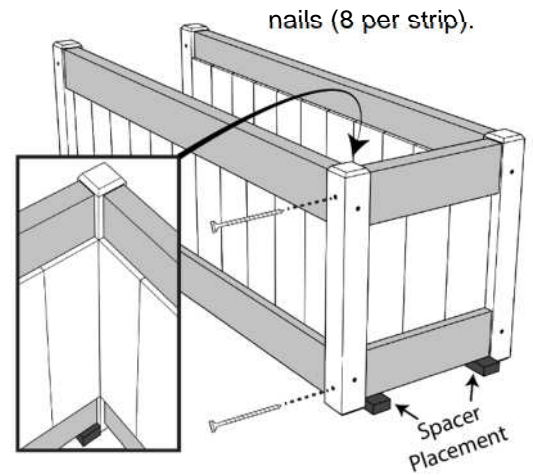

STEP 3. Attach Nailing Strips

- Arrange long side with slats facing upwards

- Set a Nailing Strip (E) under edge of slats, on long rail, and attach with
- Repeat to attach remaining nailing strip to other long side.

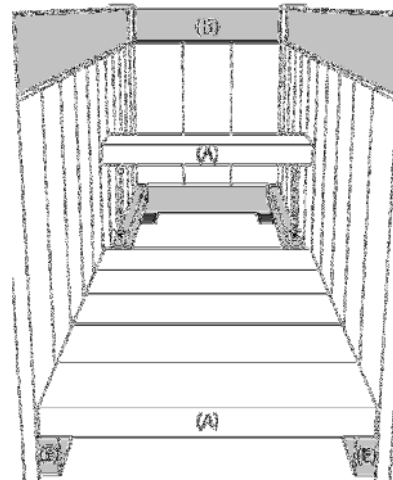

STEP 4. Assemble Box

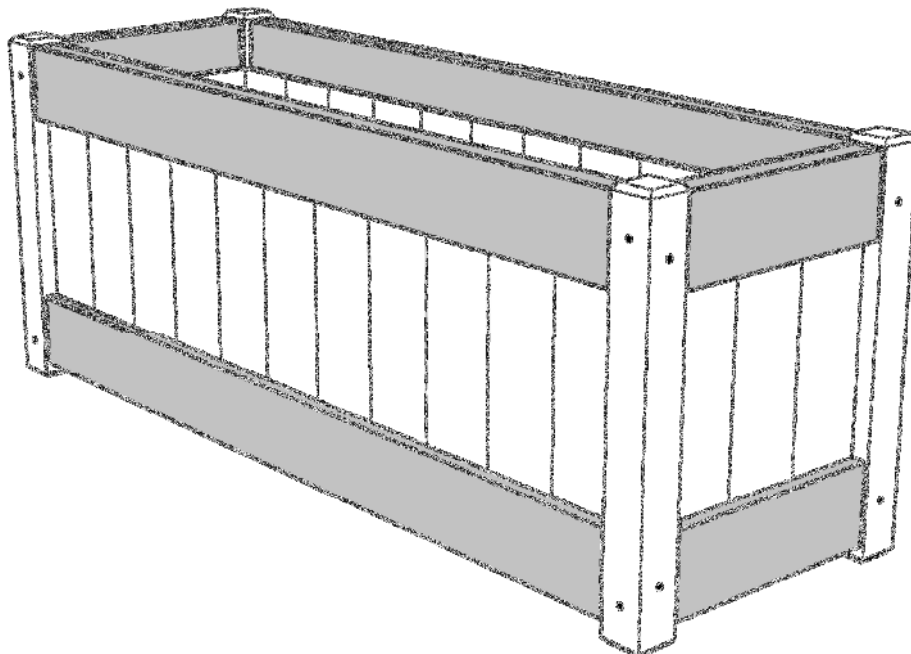

- Place a short side between posts of two long sides.
- Create bottom spacing by placing spacers under short sides.
- Ensure slats on inside corners box meet (as pictured), attach posts to short sides with screws.
- Repeat to attach the other short side.

STEP 5. Insert Bottom Slats

- Lay out remaining slats on nailing strips inside of box.
- Note: Fasteners are not required to secure slats to planter bottom.*
- *Optional: Attach Logo with nails to location of your choosing.*

Your Planter Box is now ready for use!
