All Shade Panels are custom made to your measurements. All sales are final. No refunds or returns can or will be accepted. The final shade panel dimensions and/or grommet placements will be a close approximate due to fabrication tolerances and 2-5% fabric stretch. Fabrication will take approximately 1-4 weeks, depending on the season. Current lead time is shown online.

Sunbrella is quite water-resistant and will need at least of 20-degree slope for adequate water runoff. Perimeter edges with grommets will have hidden webbing for extra support and grommets will be in corners only, or in corners and evenly spaced as close to specified spacing as possible.
